Chappie,

I share the following because there seems to be considerable interest in the future of El Paseo de Saratoga by West San Jose residents, that there is a possibility the capacity of the room may not be able to accommodate the turnout. (Difficult to predict, but there may be a need to improvise).

The Meeting is a very good idea, on the future of El Paseo de Saratoga on 6/5/19, but the turnout may be more than the previous Mattress Firm Location can accommodate. If so, people may need to improvise.

In another email I shared an experience whereby, there was a Santa Clara County Planning Meeting in the South County in recent months, invitation letter from the SCCounty Executive.

The turnout was higher than anticipated. Overflow and standing room only with all chairs taken in the Meeting room.

The State Forestry Division/Fire Department Personnel showed up and the Meeting was postponed, later divided into two sessions, held in a Community Center Auditorium. (Fire Code Safety Laws, Room Capacity limitations—Meeting could not be held that evening, as number of people exceeded the room capacity for fire code safety compliance.

Possibly, a video may be a welcome idea, like Supervisor Ellenberg recently posted on “Next Door” for a Santa Clara County Board of Supervisors’ Meeting, for the

people who are interested, but
may not be available or not in
town to attend the Meeting on the
future of El Paseo de Saratoga.

Thank you for your review.
